

LEARNING IN MOTION - CLASSROOM DESIGN DOES AFFECT LEARNING!

WittFitt is passionate about integrating movement into the classroom environment K-12. Our goal is to make the teacher's vision come to life!

While many companies simply sell furniture, we use a personal and consultative approach customized to meet the needs of all students, while also taking into account: space, budget and aesthetics.

To save you time, we have hand-selected our favorite active products that are both high quality and kid approved.

Wittfitt creates spaces that are: child-centered, dynamic & flexible, collaboration friendly, visually engaging, comfortable & ergonomic.
